

TEEN & ADULT CRAFT

★ *Beaverton Library* ★
at the

Monday, November 24

Come to the library to make a pomander with real oranges and cloves. Pomanders originated as a way to protect against illness, as people believed bad smells spread disease. Today's pomanders are used as air fresheners or ornaments, especially around the holidays, and the cloves help preserve the fruit, which dries and lasts for years.

All supplies are provided. Registration required.
