Have a garden that is over-performing? This is a great way to reduce waste and connect with the community. Can't make the drop-off time? No problem! Bring your produce with you when you come to shop. No need to leave anything in order to take available produce - although people who bring produce will get first pick. Our Crop Swap is dependent on donations and will be available while supplies last. Leftover produce will be shared with Helping Hands Mission in Beaverton.

NO REGISTRATION REQUIRED
